Peer Support

Our school Peer Support program commenced this week. It is a peer led, skills based, experiential learning program that empowers young people to support each other and contribute positively to society. It provides students with a supportive learning environment in which to develop the skills, understandings, attitudes and strategies to improve their mental, social and emotional wellbeing. Students have the opportunity to develop key skills in resilience, assertiveness, decision making, problem solving and leadership through a whole school approach to support positive cultural change, all while providing authentic leadership opportunities for our Year 5 and Year 6 Peer Leaders.

Busy Bees in Kindergarten

In mathematics we have been practising our addition skills by playing lots of fun games. We have also been focusing on 'position'. We used treasure maps to practise our positional language.

We have been practising our fundamental movement skills in P.E and sport time. We are getting very good at these skills and are having lots of fun at the same time.

We have been learning how to be responsible pet owners and how we can live safely with dogs.

We loved having our Mums and Grandmas visit us in the classroom
